Re: THE FOLLOWING LAB IS GRANTED CERTIFICATION VALID THROUGH **JUNE 2023** TO CONDUCT QUALITY ASSURANCE TESTING UNDER CHAPTER 314-55 WAC.

*Medicine Creek Analytics  
Lab Certification Number: 0018  
3700 Pacific Hwy E., Suite 400  
Fife, WA 98424*

## YOU MUST CONSPICUOUSLY POST THIS LETTER IN YOUR LAB IN PLAIN SIGHT OF THE CUSTOMERS

Your lab is certified for the following  
**Mandatory** fields of testing:

- Potency Analysis
- Foreign Matter Screening
- Water Activity
- Microbiological Screening
- Residual Solvent Screening
- Mycotoxin Screening

Your lab is certified for the following **Optional**  
fields of testing:

- Pesticide Residue Screening
- Heavy Metal Screening
- Terpenes (Non-required testing)

All testing must be done in accordance with WAC 314-55. A person with financial interest in a certified third-party testing lab may not have direct or indirect financial interest in a licensed marijuana producer or processor for whom they are conducting required quality assurance tests. In addition, a person with direct or indirect financial interest in a certified third-party testing lab must disclose to the Board by affidavit any direct or indirect financial interest in a licensed marijuana producer or processor.

A lab must allow the Board or their vendor to conduct physical visits and inspect related laboratory equipment, testing and other related records during normal business hours without advance notice.

A lab must report all required quality assurance test results directly into LCB's reporting system upon completion. Labs must also record in the reporting system an acknowledgment of the receipt of samples from producers or processors and verify if any unused portion of the sample was destroyed.

Sincerely,

Jeremy Wissing
